AMUSEMENTS

Butler Theater

It will be a feature night at the Butler this evening. Three features will be shown. The principal one is a Lubin two-reel entitled "The Crooked Path," a story of the underworld; is thrilling and well told, the situations are gripping and full of emotion and the production is absolutely correct in every detail. "Requited Love" an Essanay drama of great interest, and two Edison comedies as follows: "He Swore Off Smoking." Have you ever had dealings with a man who has sworn off smoking? If so, you will appreciate the humor and truth of this delightful comedy. "How a Horseshoe Upset a Happy Family." Does a horseshoe bring good or bad luck? The Murphy family differs very decidedly in its views—but at any rate it brings good luck to those who see this clever film. Tomorrow, the sixth number of "What Happened to Mary." Thursday a three-reel subject, "The Shaughraun." Friday, Pathe's Weekly.

WINDFALL CO'S,
AFFAIRS IN TANGLE

E. C. Johnson of the Johnson Marathon company was an arrival in Eureka Tuesday from Chicago. Johnson's company furnished the dry crushing Marathon mill recently installed by the Windfall Mining company, and claims the mill has not as yet been settled for. He is in Eureka to recover the property or obtain a settlement of his claim.

Johnson states that before leaving Chicago he learned that the present entangled affairs of the Windfall Mining company were in a fair way of being straightened out and that several of Chicago's wealthy men had arranged to take up the Windfall's indebtedness, reorganize the company, and expend some \$25,000 in development work in the mine before making any attempt to operate the mill plant.

Johnson says he understands that about three cents per share of the outstanding stock will pay up the company's indebtedness and carry out the development work planned for the mine, that stock in the new company would be issued for the old, and those shareholders who did not care to come forward with this voluntary assessment of three cents per share would have this amount deducted from their holdings when the new stock was issued.

Johnson seems very sanguine of an early settlement of the Windfall company's affairs and believes it will be only a short time before the company's plant in Eureka will be again in active operation.—Sentinel.

ACQUIRE CONTROL
OF THE GOLD CIRCLE
QUEEN COMPANYFORMER NATIONAL MINING MEN
WILL OPERATE PROMISING
PROPERTY

The control of the stock of the Gold Circle Queen Mining company was sold on Saturday by R. S. Barlow, A. W. Stowe and A. L. Brackett of Winnemucca and Messrs. Reeves, Hager and Storey of Midas to L. G. Campbell, R. S. Bolam and associates. A substantial cash payment was made and the stock placed in escrow for one year.

The deal gives Messrs. Campbell Bolam and associates, says the Humboldt Star, absolute control of the property. One of the associates of the two gentlemen named is John S. Pelton, one of the principal holders of stock in the National Mines company. A meeting of directors was held after the transfer of the stock and R. S. Bolam was elected president, L. G. Campbell vice president, and A. W. Stowe retained for the present as secretary.

The Gold Circle Queen is a property of undoubted prospects. It adjoins the Esmeralda, a mine which is producing a good grade of milling ore, where 40 men are steadily employed in the mine and mill together. Thirteen thousand dollars in gold was gophered out of one shoot in the Gold Circle Queen, and since last December, according to Stowe, through whom the deal was made, two men panned out \$3500 in gold from ore which they also mined during that time.

The new owners intend to commence work at once and open up the property. It will be directly under

the management of Bolam, who was formerly superintendent for the National Mines company at National. Bolam is also manager of the Eastern Star, another Gold Circle property.

This deal means much for Gold Circle. It means that another mine will be worked to its fullest capacity. This gives Gold Circle a list of four producing mines of exceeding merit. They are the Elko Prince, for which a big deal is now on foot; Eastern Star, Esmeralda and Gold Circle Queen.

STEADY DAILY RUNS AT MILL
OF MARICOPA MINES CO.

Several large stockholders of the Maricopa Mines company are expected to arrive any day from the east. When these gentlemen get through with their round of inspection, the Austin Revelle will go on record beforehand and say that they will be highly pleased, and that is putting it mild.

The Maricopa mill is treating daily a tonnage varying from 35 to 50 tons of ore and this will be increased in the near future. The extraction is proving better than was expected by the management and this also will be advanced by several points soon.

All the mechanical portions of the mill and power house are reported to be working to perfection. The large number of electric lights at night work as expeditious and profitably as day work. The entire plant is being brought to a high state of efficiency.

In the mine conditions are excellent. Ore of profitable milling grade

Calendars in
For Year 1914

Calendars of every form and variety for the year 1914 are being handled by the Bonanza. The samples arrived a short time ago and a representative of this paper has canvassed many of the leading business houses and procured orders. This affords an excellent chance for those who are preaching "patronize home industry" to practice their belief. The samples are beautiful and the prices are considerably cheaper than those asked by the traveling representatives of outside houses. Phone to the Bonanza and ask for our representative to call should you desire to place your order for next year calendars.

Miss Murray, in a singing sketch, will appear at the Big Casino tonight.
